08 Jul 11:59	Stop		295 Elizabeth Street, Auckland City

Integrated GPS within the digital radio

- Know where your team members are while away from their vehicles or office
- Lone worker and man down functionality will provide alerts via cellular or digital radio text
- Locate lost or stolen radios

Get e-mail alerts and reminders

CrosswireGPS utilises e-mail to alert you of events of interest to you.

- Vehicle battery low
- Unit internal battery low
- Vehicle exceeded preset speed
- Excessive G force (crash)
- Vehicle enters and exits defined places
- When vehicle services are due
- When vehicle registration and licences are due
- Alarm activation (if installed)
- Panic / duress activation (if installed)

Combined voice and GPS within one platform

- Locate your fleet where cellular coverage doesn't reach
- No cellular network fees

CWG-VT7

- OBDII plug with CanBus connection
- Internal back up battery
- Plug and play between vehicles
- Covert installation also available

WHEN USING 3G DEVICES

We can provide a SIM card that will roam on 3G between all networks Vodafone, Telecom and 2Degrees

CWG-VT1E-3G

- Simple hardwire installation
- Ignition sense
- External GPS antenna
- Internal 3G antenna

Track your mobile workforce using their iPhone or Android

- Know where your employees are during working hours with Real Time Tracking
- Encourage accountability of your staff
- Get full reports
- View daily start and finish times and number of jobs visited
- Provide accurate billing of field staff time
- Show time on site and travel time for accurate invoicing
- Ensure safety of employees

Keep your vehicles secure

Keep the contents of your vehicle safe, by integrating a tracking device with one of our Star Rated Alarms.

- All alarms provide two circuits of engine immobilisation operated by rolling code random encrypted remote control.
- Entry point protection of doors, boot and bonnet with an intelligent glass break sensor.
- Receive an email and TXT alert if your alarm is triggered.
